Due to the limitations of the 4 colour printing process, the colours of the doors shown in this leaflet act only as a guide to the actual colours of the doors supplied.

The range of Roger Haydock door sets offers functionality together with the most attractive styles and finishes whilst, at the same time, achieving the highest level of security through 'Secure By Design.'

The integrated structure of the door and frame, coupled with the highest performance locking systems and hardware, offers a cost-effective high standard door set.

Using the latest technology, Roger Haydock & Co. Ltd. is able to produce an unlimited range of door styles including the traditional Carolina and Elizabethan designs. Our fully automated paint line offers the best finishes available and, at the same time, gives total consistency to each and every door set.

With an ever changing market, Roger Haydock & Co. Ltd. is committed to developing their range of door sets by continual research and testing, thereby offering customers the most advanced product at the earliest opportunity.

Having been established for well over one hundred years, Roger Haydock & Co. Ltd. offers complete client satisfaction with no compromises.
